

November 19, 2014

To: Head of educational institutes and/or research institutes

Yuji Nagayama
The Director
Atomic Bomb Disease Institute
Nagasaki University
〔Official seal omitted〕

2015 Call for Shared Use and Collaborative Research

The Atomic Bomb Disease Institute, Nagasaki University. Building on this new momentum, we are seeking shared use and/or collaborative research projects, as described below. We hope that you will inform your researchers about this opportunity.

1. Study subjects sought

(A) Priority subjects

- (1) Social medicine study (including radiation health risk assessment study, the former Soviet Union field study, and reconstruction assistance study for Kawauchi Village, Fukushima)
- (2) Nuclear radiation life science study (including genome repair and genome informatics)
- (3) A-bomb survivor and/or *hibakusha* healthcare study

(B) Other study subjects

2. Qualifications

Regular staff members at universities or research institutes, graduate school students, or personnel who have equivalent qualifications.

If the project includes radiation operations, the personnel must have been registered at the organization as a radiation operator duly in accordance with laws

and regulations. If the project includes gene recombination experiments, the personnel must have been registered at the organization as a gene recombination experiment conductor. If the project relates to clinical study, epidemiology study, human genome study, or human stem cell research, the organization must have finished the ethical review.

3. Research duration:

From April 1, 2015 to March 31, 2016

4. Deliverables:

(1) Shared Use/Collaborative Research Application Form (Form 1)

(2) Letter of Acceptance from the organization's head (Form 2)

Before submitting the documents, an applicant must contact the coordinator of the application process at Nagasaki University for discussion.

5. Deadline:

February 27, 2015 (the documents must arrive by this day)

(Applicants may submit via our application coordinator.)

6. Please send your applications to the following address:

Administrative Office

Nagasaki University Graduate School of Biomedical Sciences

12-4 Sakamoto 1chome, Nagasaki 852-8523 Japan

(On the envelope, please write "Application for shared use and/or collaborative research.")

7. Adoption

Our governing committee decides adoptions and informs the applicant no later than March 31, 2015.

8. Expenses needed

We bear the expenses, including travel and consumables, which successful

applicants will incur for Study Subjects (A) and (B) .

9. Report

At the end of the study duration, the lead researcher must submit a Report of Development.

10. Notes

If applicants do genomic, isotope and animal experiments in Nagasaki University, they need to submit the application according to the regulation of Nagasaki University. For further information, please contact with administrative office of Nagasaki University.
